

Help shape services for informal carers in Warwickshire

Do you provide support or care for a family member, friend, or neighbour?

Have you previously looked after someone?

Are you interested in supporting people who look after others?

There will be lots of opportunities to use your experiences to help improve services and your time is entirely flexible. For example you could be giving your feedback on a service or participating in meetings. You will choose how much you'd be able to do and when.

To register your interest please use the QR code or the weblink below.
