Comments from discussion with Practice Manager:

Two patients today came from out of catchment area to have minor surgery at Hastings House.

One local patient, who had an appointment the day before, saw the notice about Healthwatch Warwickshire’s visit and came over just to complete a questionnaire with a positive response.

A new build for the surgery is due to start in June and the surgery anticipates moving in one year to the new site. The surgery is being funded by the seven partnership doctors.

Recommendations

- Surgery to ensure that the website matches the surgery’s current opening hours listed for Mondays as it currently states on the website that the surgery is open 08:00 - 13:00, 13:00 - 18:30, 18:00 - 20:30. As there is no surgery closure during lunchtime the website could be altered to state Monday opening hours as 08:00 - 20:30.
- The surgery look into the concerns raised by the patients in respect of the appointment booking system. One solution to this could be maximising the use of online appointment booking to reduce the amount of telephone traffic. **Note:** This point was raised with the Practice Manager at the time of the visit who confirmed that the surgery is planning on developing online booking.
- Informing patients on the day of any delays which may impact their appointment. Good practice seen at other surgeries has involved a notice board in Reception or the use of the electronic check in to notify patients of current waiting times. **Note:** the surgery is aware of the problem and said that it will try to improve the situation so that patients know if the doctor or nurse are running late.

Surgery Response

'Since the visit by the Healthwatch team, the practice has taken on board the comments that were raised by both the patients and visiting team from Healthwatch.

A number of changes have been implemented including a new front of house reception procedure, patients can now be served at all reception windows to help with their queries. New staff have been employed and trained to provide support and signposting to patients attending the practice.

The practice is also looking forward to the building of their new premises which they are now hoping will start in September 2017.'

The practice would like to thank Healthwatch for their visit, and would more than happily welcome a visit to either of our sites in the future.
