Our purpose is to make health and social care services work better for the people who use them.

Everything we say and do is informed by our connections to local people.

We aim to understand the needs, experiences and concerns of people of all ages who use local services, and to speak out on their behalf.

For more information, or to give us feedback online, visit [healthwatchwarwickshire.co.uk](http://healthwatchwarwickshire.co.uk)

We believe that by asking people to share their experiences of local services, we can identify issues that, if addressed, will help us to improve them.

If you have a problem, we will direct you to help, and we will use any feedback to make things better for everyone.
