Other Comments Received

“Would be handy if the surgery was open on a Saturday.”

“I always visit the trainees. The good thing about seeing somebody new is that they start from the beginning.”

“It’s a nice practice. Even if I have had to wait to see the GP I have never felt rushed. I always try to see the same GP.”

“Good experience. Very friendly and helpful. I would never consider changing GP.”

“Lovely GP practice. All GPs lovely and approachable.”

“I would like to see my own GP once in a while to build a relationship with them rather than having to explain myself multiple times.”

“The surgery always has emergency appointments. Overall, compared to other surgeries, it is excellent. The booking system is great. If you need to be seen they will see you.”

“It’s pretty good. I am a long-term patient and it is improving all the time.”

“Extended opening hours would help with the back-log of appointments. A Saturday morning appointment would suit me better.”

“Brilliant - I can always get an appointment on the day. It is a very good surgery.”

“I am very happy.”

“I completed and submitted a form for my vaccination but I was not told of the process. I expected to be contacted but when I didn’t hear anything I called the surgery and was told that I should have been called. The process should be explained to patients. They also only had enough for two out of the three vaccinations I need at the time of my second appointment so I had to come back for a third appointment.”

“It is very good here. I wouldn’t go to another GP.”

“I don’t feel rushed in appointments. The availability of my GP and the care given is very good.”

“Absolutely satisfied. The GPs are very good.”

“I am happy with the surgery. I wouldn’t think of changing.”

Recommendations

- The surgery look into the concerns raised by the patients in respect of the appointment booking system. One solution to this could be maximising the use of online appointment booking to reduce the amount of telephone traffic.
- The surgery ensures that it consistently informs patients on the day of any delays which may impact their appointment.

Surgery Response

Received from Emily Hughes, Practice Manager

Thank you for your helpful suggestions. We will continue to promote the use of the online booking system whilst trying not to disadvantage those without access to a computer. We are currently trialling adjusting the online appointments to times more convenient for the working population.

If there is a delay our receptionists advise the patient when booking in the number of patients to be seen before them. We do not inform patients of a specific waiting time as this is an unknown quantity.
